PROFILE

Passionate about software development and enthusiastic and building a successful career as a Junior Software Developer. Recently completed the Full-Stack Web Development bootcamp at Le Wagon, London, where I collaborated with a team to design, develop, and deploy the 'Chromatic' music events app.

EDUCATION

Jan – Mar 2023

Le Wagon, London

Full-Stack Web Development

Languages/Frameworks:

- HTML, CSS & JavaScript
- Bootstrap
- Figma
- Ruby on Rails.
- Git/GitHub
- PostgreSQL
- AJAX/Stimulus

2018 -2021

Bucks New University

Degree

BSc Sports Therapy 2:2

PROJECTS

Chase the Sun Tracker

- Utilized Heroku for seamless deployment, showcasing knowledge of cloud platforms.
- Utilized JavaScript functions to handle user inputs and calculate relevant statistics, such as remaining distance, time to finish, and current estimated time of arrival.
- Integrated real-time sunrise and sunset data from an external API to provide users with context-aware information.

Chromatic

- Leveraged Ruby on Rails to build a robust and scalable backend, employing RESTful APIs for seamless data exchange.
- Utilized PostgreSQL to design and optimize the database schema, ensuring efficient data storage and retrieval.
- Implemented engaging front-end features using HTML, CSS, and Stimulus JS to create a user-friendly experience.
- Employed Git for version control, facilitating collaborative development and codebase management.

WORK

EXPERIENCE

Jun – Dec 2022

Broadcast Production Assistant

Captured World

- Played a critical role in ensuring the seamless technical execution of podcast production, including audio recording, editing, and post-production tasks.
- Effectively translated technical concepts to non-technical clients, ensuring smooth project delivery and client satisfaction.
- Utilized industry-standard software and tools for post-production editorial work, ensuring the highest quality audio and engaging content for the audience.

Oct 17 – Apr 18

Physiotherapy Assistant

Heatherwood Hospital

- Collaborated closely with a multidisciplinary team to provide outstanding patient care, demonstrating excellent analytical skills in understanding patient needs and treatment plans.
- Assisted patients recovering from Hip/Knee replacements and Arthroscopies, employing a detail-oriented approach to ensure accurate and safe procedures.
- Displayed leadership qualities and emotional intelligence in patient interactions, fostering a supportive and caring environment for patients' well-being.

TRANSFERABLE SKILLS

- Strong problem-solving abilities with a logical approach.
- Excellent attention to detail, ensuring high-quality deliverables.
- Effective time management skills to meet project deadlines.
- Adaptability to thrive in dynamic and challenging environments.
- Collaborative team player with excellent communication skills.

TECHNICAL SKILLS

Languages: JavaScript, Ruby, PHP

Frameworks: Ruby on Rails

Frontend: HTML, CSS, SCSS/SASS, Stimulus JS, Bootstrap

Database: PostgreSQL

Version Control: Git/GitHub

Design: Figma
